Fun in the sprinkler!

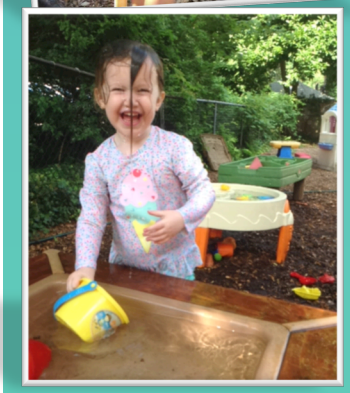
Summer Camp

MMO Summer Camp provides fun discovery experiences geared for young learners! Summer camp offers fun, hands-on learning through a combination of creative physical and academic activities.

Each week's theme serves as a basis for adventures in science, drama, arts & crafts and more! Our sprinklers and water sensory tables keep our young campers cool outside and our air-conditioned spaces offer comfortable classrooms inside.

Themes included:

- Weather
- Favorite Authors
- Summer
- Space
- Animals
- Five Senses
- Colors
- Things that go
- Things that grow



Water-sensory tables

SNAPSHOTS FROM
SUMMER CAMP 2017 and 2018

Arts & Crafts

WEEK 1 WEATHER: For weather students made kites, which they could fly on a windy day!
WEEK 2 FAVORITE AUTHORS: Our students loved making projects related to some of our favorite authors like Eric Carle and Dr. Seuss!
WEEK 3 SUMMER: Students loved making "pretend" ice-pops to help us stay cool and even painted with citrus fruit.
WEEK 4 SPACE: We made the planet Earth, Rocket Ships and even planes that took flight!
WEEK 5 ANIMALS: Pigs in the mud was just one of the many fun art activities we covered in animal themed week.

Science Explorations

WEEK 1 WEATHER: Campers learned about extreme weather conditions like lightning and thunder, static electricity and even made TORNADOES!
WEEK 2 FAVORITE AUTHORS: Our little ones learned about some different fields of science like engineering from characters like "Rosie Revere the Engineer." The children listened to the story "Ada Twist, Scientist" by Andrea Beaty and watched as a "geyser" was formed when Mentos were combined with Diet Coke!
WEEK 3 SUMMER: A popular place to visit in the summer is the beach, so students got to touch and feel things found on the beach.
WEEK 4 SPACE: Every day campers got to learn about different planets and our sun. We even made craters with asteroids!
WEEK 5 ANIMALS: Students learned about different animals everyday this week and some of their unique characteristics.

Dramatic Arts

WEEK 1 WEATHER: We covered all four seasons in our first week of camp, and our students pretended to be on a beach on a sunny day.
WEEK 2 FAVORITE AUTHORS: The children loved re-creating scenes by favorite storybook authors by making sets and acting out the plots. One favorite was making a coconut tree for "Chicka Chicka Boom Boom"!
WEEK 3 SUMMER: The children went camping, encountered wild animals in the forest and roasted marshmallows during our "summer" week of camp.
WEEK 4 SPACE: Our campers became astronauts this week! They made a spaceship (equipped with a lego control panel) and flew to outer space! Students took flight in the space pod (some got dizzy).
WEEK 5 ANIMALS: Students get to pretend to be animals in their natural habitats this week.
